

Andrew Mallozzi

Leveraging the communication skills I learned pursuing my degree in English, I want to use the passion I developed for technology combined with my degree to create compelling works of writing across a broad spectrum of media.

EXPERIENCE

XL Catlin, Stamford, CT — *Internship*

June 2017 - August 2017

Redeveloped significant elements of both the internal and external web presence for the company, used Angular, jQuery, and Bootstrap.

SiriusDecisions, Wilton, CT — *Internship*

June 2016 - August 2016

Redesigned the internal support web environment with CSS and JavaScript. Also performed basic systems engineering support for both PC and Mac hardware systems.

EDUCATION

University of Delaware — *Bachelor of Arts*

Degree: Spring, 2018

Major: English (Major GPA: 3.8) (Developed and presented a research project using literary mapping technologies.)

Minor: Computer Science

Relevant Coursework: Intro to Computer Science, Data Structures, Algorithms, Software Engineering

PROJECTS

Personal Portfolio Website — *Demonstration*

Developed to showcase my skills in both web development and mobile development using Bootstrap, SASS and JavaScript.

Llama Website — *Single Page Website*

Developed during school hackathon to showcase the importance of single page websites in today's world. Used Bootstrap, SASS and JavaScript.

Workout Tracker — *Mobile App*

Developed with Swift for iOS using storyboards and xibs in Sketch. Tool provides progress reporting on exercise routines.
